

Mark-Making Machine

To rev us up for the Art Buggy Derby* (it's coming up fast... on October 19th) today we are going to make machines that create something else.

Make a contraption that draws a line or splatters paint or writes a word or imprints a picture... something that upon triggering leaves a mark behind.

Please try not to get whatever it is you are drawing with all over the floor or tables, just like in the Art Buggy Derby we frown upon splattering the environment.

*Kids, Art Buggy Derby is less than a month away! Make one! Race one!

It'll be fun and you can win great prizes!

Check out the rules and other info at www.artbuggy.com or talk to Dana or Harris.

have fun. make something crazy.
